EDUCATION

Christ Deemed to be University

Master of Computer Applications - CGPA: 3.41

Aug 2024 - May 2026

Bangalore, Karnataka

St. Francis De Sales College, Bangalore University

Bachelor of Computer Applications - GPA: 7.40

Aug 2020 - May 2025

Bangalore, Karnataka

EXPERIENCE

R&D Intern

Redinent Technologies

May 2024 - Jun 2025

Bangalore, India

- Assisted with network reconnaissance and basic web penetration testing, identifying exposed services and supporting the team with research and vulnerability analysis.
- Gained hands-on experience in vulnerability scanning and web testing using Nmap, Burp Suite, Shodan, and OSINT, along with IoT security basics, traffic analysis, and findings documentation.
- Accelerated security research by identifying exposed services and producing accurate scans and analysis, making vulnerability discovery faster and more efficient.

Advisor - Geek Squad

Best Buy / [24]7.ai

Sep 2023 - Apr 2024

Bangalore, India

- Diagnosed hardware and software issues for customers, performing troubleshooting and resolving device problems through clear communication and real-time guidance.
- Developed skills in device diagnostics, OS troubleshooting, malware removal, data recovery, problem-solving, and handling diverse consumer technology issues.
- Improved customer experience by resolving issues faster, reducing repeat calls, and streamlining support workflows through effective technical guidance.

PROJECTS

Elicita WhatsApp Bot

Node.js · Express.js · WhatsApp Cloud API · AWS LightSail · PM2 · Nginx

- WhatsApp bot built for the Electronic City Industrial Township Authority (ELCITA) to help residents access civic services including property tax information and water bill payments.
- Developed the bot logic using Node.js and Express.js, integrated Meta's WhatsApp Cloud API, and deployed the complete system on AWS LightSail with PM2 and Nginx for reliability.

LeveledCV

Vite · Next.js · React · Google Cloud Run · Nginx · PM2 · GitHub Actions · CI/CD · Spring Boot · PostgreSQL

- AI-powered resume platform that semantically analyzes job descriptions to generate role-specific, ATS-optimized resumes from a single user profile.
- Designed scalable frontend and CI/CD workflows while securely deploying and testing cloud-native services with automated pipelines and security tooling.

QuizWiz

Next.js · Firebase · Google Auth · Real-Time Database · AI Tools · UI/UX Design

- AI-powered quiz platform where users take topic-based quizzes, earn points, unlock power-ups, and compete on a real-time leaderboard.
- Built the quiz logic, integrated Firebase Auth, managed real-time scoring, and designed the interactive UI for a smooth quiz experience.

Christ Wellness

Next.js · Firebase Auth · WhatsApp Cloud API · Bot Development · Full-Stack Development

- Dual-platform system for Christ University students offering a social feed, events, and activities on web, while a WhatsApp bot handles counseling, complaints, and department communication.
- Built the web app modules using Next.js, integrated Firebase for data flow, and developed the WhatsApp bot using Cloud API for automated student services.

SKILLS

Programming & Frameworks: Next.js, Node.js, React.js, Vite, Express.js, Spring Boot, REST APIs, Java, Python

Frontend & UI/UX: Tailwind CSS, Responsive Web Design, CSS, Figma, Framer, ShadCN

Cloud & DevOps: Google Cloud Platform, Cloud Run, Compute Engine, Nginx, PM2, CI/CD, GitHub Actions, EC2, Vercel, Render

Cybersecurity & Testing: Nmap, Burp Suite, OWASP ZAP, Shodan, Metasploit, Wireshark, Aircrack-ng, Penetration Testing, OSINT

AI & Data: AI/ML-based Insights, Neural Networks, OpenCV (CV2), Isolation Forest

Soft Skills: Critical Thinking, Problem-Solving, Collaboration, Communication, Adaptability, Analytical Thinking
